“ We live in a world where few problems are solved completely independently. Being able to effectively work with others to find opportunities for innovation, develop solutions to ‘wicked’ problems and develop new ideas is seen a highly valuable skillset in today’s world. To create a culture of collaboration in any environment, you must first be able to understand yourself. Developing personal integrity can be fostered by providing the opportunity for learners to understand their own personal values, purpose and personal strengths which in turn, allows deeper empathy and understanding of other perspectives.

”

Future Learning Academy

Creating Collaborative Learners is an online Professional Learning course for educators, designed to self-pace while being connected to an online Professional Learning community and Future Capabilities Facilitator. Educators will build capability in designing, evidencing and assessing Collaboration and Social Capability by engaging with online learning and applying practical classroom strategies through the following;

Module 1: Emotional Intelligence, Collective Problem Solving & Future Capabilities

Module 2: Learners understand self and others to work together effectively

Module 3: Learners plan how they will work together collaboratively

Module 4: Learners engage in collaborative problem solving and conflict resolution

Module 5: Learners reflect on self and team performance

Module 6: Learners develop personal insight and set goals for future collaborative learning or work.

Underpinning each online learning module is opportunities for deeper understanding, collaboration and practical application of learning and teaching strategies through Milestone Tasks. To support the implementation of new learning, 2 X 1 hour webinars are delivered by a Future Capabilities Facilitator. Each educator has the opportunity to receive the *Creating Collaborative Learners* micro-credential, by evidencing impact on student learning.

Professional Learning Hours: 12 – 15 hours

Course Length: 12 Weeks
