Learning
Academy

Inspiring educators to shape future capable learners.

Empower your educators to level-up their learning design to prepare students for the future.

The perfect balance of online and face-to-face experiences for educators, allowing schools to tailor a flexible approach that fits into any busy school schedule.

Rapidly up-skill your staff with practical on-demand courses, so that teachers can learn today and implement tomorrow.

FUTURE CAPABILITIES Framework

The Future Capabilities Framework is the foundation which underpins all the Future Learning Academy courses. The framework provides Learning Design Steps that are a practical resource for educators to create experiences that support learners to develop their character qualities, skills and future capabilities. Crucially, the basis for each future capability is the Victorian & Australian Capabilities Curriculum and is designed to be a holistic approach to learning design.

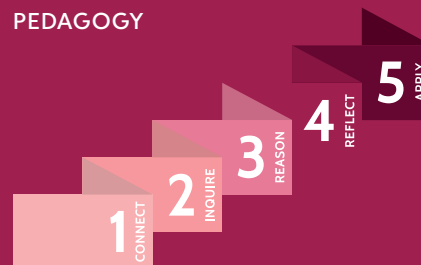

Each Future Capability Course explicitly links to key pedagogical themes identified in the Australian Capabilities Curriculum and has been specifically designed to equip educators with both the mindset and the tools to create a future capabilities focused curriculum. Each course is delivered through the Educator Learning Hub using a blended Professional Learning model.

LEARNING DESIGN STEPS

EXPLICITLY CONNECTED TO CAPABILITIES CURRICULUM

SCAFFOLDS CHARACTER QUALITIES, SKILLS AND CAPABILITIES FOR THE FUTURE

FUTURE FOCUSED PEDAGOGY

Educator Learning Hub

Designed to equip educators with both the mindset and the toolkit to shape future capable learners, the Educator Learning Hub combines on-demand, online learning courses with educator collaboration and live webinars to create powerful learning experiences for educators.

Offering courses on the teaching, learning and assessment of future capabilities and explicitly linked to the national and state-based curriculum standards.

EDUCATOR LEARNING

How does it work?

AN ACCESSIBLE, SELF-PACED 12-WEEK COURSE

Each course is delivered in an online 12-week course that can be accessed anytime, anywhere and on any device. Educators can choose to self-pace their learning or follow the set week-by-week structure.

CONNECTED WITH PEERS TO CREATE A SHARED EXPERIENCE

Starting with a cohort of peers that undertake the learnings module together, educators have ongoing access to an online discussion forum to ask questions, share practice, collaborate and learn.

COLLABORATIVE, SUPPORTIVE LEARNING OPPORTUNITIES

Two live webinars hosted by the Future Learning Academy's expert coaches are held during each 12-week learning module. These live webinars provide an opportunity for educators to deepen their learning, get practical tips and ask questions about their own classroom environment.

IMPACTFUL LEARNING AND MEASURABLE PROGRESS

Learning modules include an Impact Milestone Toolkit to allow educators to demonstrate and measure their progress. Educators are required to implement their learning, capture student work and reflect on the impact of their approach.

ASSESSMENT & DIGITAL CREDENTIAL

Educators have the opportunity to be assessed and awarded a digital credential for demonstrating mastery in the future capability course.

WHAT'S INCLUDED?

Each course includes learning modules that provide the resources and tools to implement the learning design steps for each Future Capability.

ONLINE COURSE WITH 6 LEARNING MODULES

EXPERT FUTURE CAPABILITIES FACILITATOR

PRACTICAL RESOURCES, LESSON IDEAS AND SAMPLES

EDUCATOR IMPACT MILESTONE TOOLKIT

FUTURE CAPABILITIES

Courses

SHAPING CRITICAL THINKERS

UNDERSTAND THE KEY SKILLS OF QUESTIONS & POSSIBILITIES, REASONING, METACOGNITION

EXPLORE BEST PRACTICE TECHNIQUES, PEDAGOGIES AND PRACTICAL TOOLS THAT PROMOTE DEEPER THINKING

DESIGN AND EVIDENCE LEARNERS CRITICAL AND CREATIVE THINKING CAPABILITY

Today we engage, communicate and share information with ease. Therefore, it is less about the information you can recall or memorise, but having the ability to be curious about the world, asking 'big questions' to guide deep thinking using sources that provide us with concepts, ideas and perspectives. Fostering learners to think deeply and critically will ensure they are empowered through knowledge, to have agency over the problems they face and ultimately create a world that will be sustainable and a thriving place for generations to come.

DEVELOPING SELF-DIRECTED LEARNERS

UNDERSTAND HOW SELF EFFICACY, CHOICE AND RESILIENCE SHAPE SELF-DIRECTION

EXPLORE BEST PRACTICE TECHNIQUES, PEDAGOGIES AND PRACTICAL TOOLS THAT PROMOTE STUDENT AGENCY

DESIGN AND EVIDENCE LEARNERS PERSONAL CAPABILITY AND SELF-DIRECTION

To meet the demands of a changing world, individuals require initiative and self-awareness to identify their own strengths and preferred ways of working. Through supporting learners to developing both personal and professional insight into their performance, they are provided with an opportunity to develop resilience and grit in achieving long-term personal, learning and career goals to experience self-efficacy and ultimately, fulfillment in their lives.

FUTURE CAPABILITIES

Courses

CREATING COLLABORATIVE LEARNERS

EXPLORE EFFECTIVE TECHNIQUES TO PROMOTE HIGH LEVEL COLLABORATIVE PROBLEM SOLVING

UNCOVER BEST PRACTICE TECHNIQUES, PEDAGOGIES AND PRACTICAL TOOLS SUPPORT EFFECTIVE COLLABORATION

DESIGN AND EVIDENCE LEARNER CAPABILITY IN COLLABORATIVE PROBLEM SOLVING

The ability to effectively work with others to find opportunities for innovation, develop solutions to 'wicked' problems and develop new ideas is seen a highly valuable skillset in today's world. To create a culture of collaboration in any environment, you must first be able to understand yourself. Developing personal integrity can be fostered by providing the opportunity for learners to understand their own personal values, purpose and personal strengths which in turn, allows deeper empathy and understanding of other perspectives.

What is a digital credential?

Digital credentials go beyond paper certificates. They are portable, verifiable, and uniquely linked to you. They also ensure that your hard-earned achievements are owned by you, not us - you can access and utilize your digital credential whenever, however you see fit. Digital credentials make you - and your achievements - more visible to schools, educators and professional education networks.

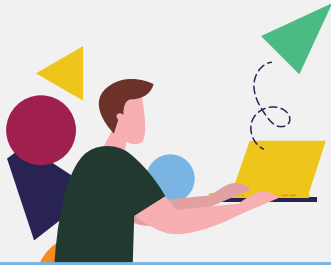

Future Learning Academy has partnered with the leading digital credential provider Credly, to provide acknowledgment for having impact on student learning.

WHY DIGITAL BADGING?

- Verified against educator capability standards
- Professional recognition for curriculum innovation
- A web-enabled version of your certification that can be shared online
- Sharing verified capability across digital platforms
- A trusted method for real-time certification verification

PROFESSIONAL LEARNING PACKAGES **CHOOSE YOUR LEVEL OF LEARNING**

FUTURE FRAMEWORK

ONLINE COURSE

Inclusions:

12 WEEK ONLINE COURSE

- Your choice of one 12 week course focused on embedding the Future Capabilities Framework
- Videos featuring curriculum experts and real-life educators explaining how they've implemented the tools and mindset in their practice
- Practical resources, lesson ideas and templates
- Access to an online discussion forum with their peers hosted on Slack
- 2 x live webinars with Future Learning Academy's expert coaches
- Impact Milestone Toolkit to demonstrate and measure student learning progress

FUTURE CHAMPIONS

ONLINE COURSE CHAMPIONS TRAINING

Inclusions:

12 WEEK ONLINE COURSE

All online learning inclusions *plus...*

CHAMPIONS TRAINING

- 2-day face-to-face workshops
- Development of in school leaders/champions
- Access to additional Professional Learning support materials to guide PLC workshops
- Equipped to deliver ongoing support & coaching

FUTURE CURRICULUM

ONLINE COURSE CHAMPIONS TRAINING FACE-TO-FACE SCHOOL SUPPORT

Inclusions:

12 WEEK ONLINE COURSE

All online learning inclusions *plus...*

CHAMPIONS TRAINING

All champions training inclusions *plus...*

CURRICULUM COACHING

- Support to implement the Milestone Toolkit
- Educator coaching and support
- Immersive, hands-on workshops demonstrating best practice
- Embedding learning design into units of work

PROFESSIONAL LEARNING PACKAGES **ADDITIONAL OFFERINGS**

USER SUBSCRIPTIONS

Add additional educators to each course license at point of need. Ideal for delivering additional cohorts of learners or adding new staff to existing courses.

Inclusions:

- Videos featuring curriculum experts real-life educators explaining how they've implemented the tools and mindset in their practice
- Practical resources, lesson ideas and templates
- Impact Milestone Toolkit to demonstrate and measure student learning progress

INDEPENDENT ASSESSMENT AND DIGITAL CREDENTIALS

Get an independent assessment of your educators' Impact Milestone Toolkits from Future Learning Academy's expert coaches. To achieve mastery, educators must demonstrate the ability to design for and gather evidence of student capability. Once achieved mastery educators also receive their credential in the form of a digital badge that holds meta-data about their capability, directly linked to their assessment outcome.

Inclusions:

- One round of feedback on educators' Impact Milestone Toolkit from a Future Learning Academy coach
- One round of assessment from a Future Learning Academy coach
- Provision of a digital badge and credential demonstrating educators' capability in the course

LEARNER INSIGHTS AND ANALYTICS

Support educators to get the most out of their learning experience with regular reporting, insights and analytics. See which educators have logged into training, how long they've spent on lessons and how they are progressing through their learning modules to measure educator engagement and sustain educator Professional Learning.

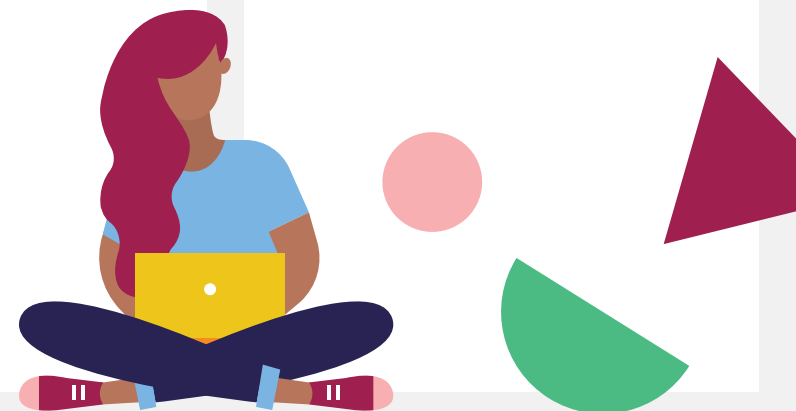

Inclusions:

- Live reporting and regular updates
- Data analytics of educator online activity
- Strategic advice and guidance

ON-DEMAND SUPPORT FROM FUTURE LEARNING ACADEMY'S EXPERT COACHES
